Mr. MICA. Mr. Speaker, I rise today to honor and pay tribute to PFC Nicholas Rogers, 27, who died while serving our Nation in Iraq.

Prior to joining the Army, Nicholas spent his childhood living in Deltona, Florida where he was a Boy Scout. Nicholas graduated from Deltona High School where he played the drums and had a special appreciation of all things Star Wars.

He was assigned to the Headquarters and Headquarters Company, 4th Battalion, 31st Infantry Regiment, 10th Mountain Division unit out of Fort Drum, NY which was deployed to Baghdad. His colleagues remember a compassionate individual who cared deeply for others while his family recalls his uncanny ability to make people laugh.

## IN HONOR OF ANNA CABALLERO

**HON. SAM FARR**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, November 14, 2006*

Mr. FARR. Mr. Speaker, I rise today to honor the achievements of Anna Caballero. Anna first moved to Salinas in 1982 and started a law office specifically to provide excellent legal representation for working people. She promptly became active in town, and due to

her immense enthusiasm she was quickly recognized as a community leader. She served on the city council for 7 years, including 4 years as Vice Mayor. In 1998 Anna was elected as the first female Mayor in the 126-year history of the city of Salinas, and has hence served 4 terms.

During her tenure as city Mayor, Anna was a driving force in improving life for the people of Salinas. Some of her most successful projects were the diversification of Salinas's economic base, improving the affordability of local housing, the redevelopment of historic downtown Salinas, and ensuring the permanent funding of the Salinas library. The key to her success was her innate ability to sit people down, get straight to the issue and have them reach a consensus. Furthermore, Anna used her talents to streamline the Mayor's office and develop partnerships with neighborhoods, parent groups, labor groups, school districts, local businesses and the greater Salinas community.

Anna's accomplishments in the community have not gone unnoticed. In 1996, Anna was honored with the "Athena" award for "entrepreneurial excellence" by the Salinas Area Chamber of Commerce, the most prestigious honor the Chamber can bestow upon a fellow businessperson. In 2000, the Monterey County Lawyers Association granted Anna the Justice Ribbon Award, the Association's highest award for members who bring distinction to the legal profession through commitment to public service.

Anna has continued to reach out to the community. She is an avid volunteer coach for local baseball and soccer teams. She works with the Mexican-American Women's National Association, "MANA", to raise scholarship money for young women continuing to higher education. Anna is also an Executive Director of the non-profit Partners for Peace, dedicated to developing multi-disciplinary partnerships, which share community resources to bring about community change.

Mr. Speaker, I rise once more to applaud Anna Caballero's many accomplishments. On behalf of the United States Congress, I would like to congratulate her on her successful career, and express my sincere gratitude for her commitment to the community.

#### IN HONOR OF THE 50TH ANNIVERSARY OF THE HUNGARIAN REVOLUTION

**HON. DENNIS J. KUCINICH**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, November 14, 2006*

Mr. KUCINICH. Mr. Speaker, I rise today in honor of the 50th anniversary of the 1956 Hungarian Revolution and the valiant contribution of the Hungarian people to those efforts. A true expression of democracy, public disaffection, and the spirit of the voice of the people, the nationwide revolt stands today, a half a century later, as a strong, albeit bitter reminder of both the oppression of the former Soviet Union and more importantly the strength and resolve of the Hungarian people in their desire for freedom.

On October 23, 1956, brave students demanding their intellectual freedoms stormed the Radio Building in the Budapest Parliament. Immediately, they were suppressed when the Soviet State Security Police began firing upon these unarmed civilians. News of the attack spread quickly and led to a public uproar in Budapest, where outraged citizens organized immediately to take up arms and defend their natural rights of justice, liberty, and sovereignty. At the forefront of the 12-day struggle for control of the capital and the rest of the country was Gen. Pál Maléter. As the leader of the infantry in Budapest, he courageously went against his orders and, upon meeting with the insurgents, lent his support to their fight for freedom. With the strategic support of Maléter, the outlook of the revolutionary freedom fighters was optimistic. A cease-fire was reached between revolutionary and Soviet forces, and provisional government councils were set up to usher in the new era of peaceful democracy.

The Soviet forces, however, under pressure from the international community to assert its control by uprooting any possible seed of democracy, moved quickly to crush the movement through deadly means. They violated the cease fire by opening fire on crowds of civilians and bombarding the city with artillery tanks. What started as a peaceful democratic independence movement ended in bloodshed with the murder of thousands of civilians through an illegitimate surprise invasion. On November 3, during more cease-fire negotiations, the Soviet military kidnapped Pál Maléter and the Hungarian delegation, charged them with treason and promptly ordered their execution. With the leadership of the revolution arrested, the Soviet military simply invaded again, and took over the city.

The hope for independence, self-rule, and democracy is one that can never be extinguished in any society. The Hungarian people, in the democratic spirit, banded together to fight like many before them for the basic human right of peaceful self-governance. They did not fail. Today, we see Hungary as a regional success story for democracy, the free market, and civil society. This eventual, if delayed, victory shows us though the road to democracy is not always an easy one, the spirit of people will ultimately prevail in the inexorable march toward democracy.

Mr. Speaker and colleagues, please join me in honoring the values of freedom, independence, and democracy that the Hungarian people demanded 50 years ago. The Hungarian Revolution of 1956 stands as a reminder of the undying desire of any society to be free from forces of hegemony.

#### TRIBUTE TO LATICRETE INTERNATIONAL, INC. AS THEY CELEBRATE THEIR 50TH ANNIVERSARY

**HON. ROSA L. DeLAURO**

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, November 14, 2006*

Ms. DELAURO. Mr. Speaker, I am proud to rise today to join the Bethany community and the Rothberg family in celebrating the 50th anniversary of Laticrete International, Inc., a worldwide manufacturer and marketer of material and methods for the installation of ceramic tile and stone. Throughout their 50-year history, Laticrete has been the leader in innovative technologies for such installation systems. Their impressive history of vision and leadership, coupled with their dedication to quality products, has made them one of the most successful businesses in our community.

Founded in 1956 by Henry M. Rothberg, a chemical engineer by trade, Laticrete came into being when he brought the improvements of chemistry to the normal Portland cement based installation systems for tile and stone. It was while managing a family tile, terrazzo and marble installation company that the problems inherent to installing these materials with the traditional "full mortar bed" became more and more evident to Henry. He decided to dedicate himself to research into alternate methods of installing ceramic tile and stone. While consulting with the Chemical Division of the U.S. Rubber Company, he developed a unique compound that had all the properties of natural rubber—elasticity, water resistance and durability, plus the properties necessary to make it viable to the construction industry—resistance to frost and heat damage, the ability to mix with Portland cement and remain plastic for adequate working time and the ability to be stored in full or partial containers for extended periods of time without deterioration or spoilage. The new latex was introduced to the market as "LATICRETE." It has been upon these pioneering efforts that all modern adhesives utilizing the Adhesive Mortar Method have been built.

The innovative products of Laticrete have been used in some of the most recognizable national treasures in the world. Here in the United States, Laticrete products were used in the construction of such monuments as the St.

Louis Arch, the Detroit Renaissance Center, the Sears Tower, and Washington, DC's Metro System. Laticrete products can also be found in the Basilica of Our Lady Peace of the Ivory Coast in Africa, the Petronas Twin Tower of Kuala Lumpur, Tele Diffusion de France in Paris, and the National Mosque of Kota Kinabalu in Malaysia. What began as one man's vision of improving a product has become an international leader in the industry—that is what Yankee ingenuity is all about.

Perhaps what is most special about Laticrete is that it has become a family business that has been passed on to the next generation. In 2003 David Rothberg was named chairman and CEO, replacing his father as head of the company. I have had the pleasure of meeting David and have had the opportunity to tour the Laticrete facility in Bethany. Their tireless commitment to quality and vision is not only impressive, it is inspiring.

I am honored to take this moment and recognize the innovative and entrepreneurial spirit of Henry Rothberg as well as David Rothberg and the entire Laticrete family for their many invaluable contributions to the industry.

My heartfelt congratulations to them as they celebrate this very special anniversary. I have no doubt that Laticrete will continue in its success for many years to come.
